A self-driven junior web developer with a passion for creating immersive and user-focused digital experiences. Through self-directed learning, I've honed my skills in a variety of technologies, including **React.js**, **Next.js**, **NextAuth**, **Redux-Toolkit**, **Tailwind CSS**, **Typescript**, **Material-UI**, **Shadcn-UI**, **Node.js**, **ExpressJs**, **Prisma**, **PostgreSQL**, and **MongoDB**.

You can check my personal detail and my personal projects on [my website](#).

Personal Projects

Sarr Mal (POS) [demo](#) [github](#)

- It's aimed for restaurant where customers don't need to wait for order because all tables are provided by Qr-code.
- Frontend has used **React.js**, **Nextjs**, **Material-UI** , **Typescript**, **NextAuth** for authentication and stage management for **Redux-Toolkit**.
- Backend - **Prisma** and **PostgreSQL**
- It has two app, one for restaurant and rest for customer.

Breadit [demo](#) [github](#)

- Worked like Reddit, create community and then create post. If you want to create a post you must join community that you want to post on it.
- Frontend has used **React.js**, **Nextjs**, **TailwindCss**, **Shadcn-UI**, **Typescript** and **NextAuth** for authentication.
- Backend and Database -**Prisma** and **MySql**.
