A self-driven junior web developer with a passion for creating immersive and user-focused digital experiences. Through self-directed learning, I've honed my skills in a variety of technologies, including React, Next.js, NextAuth, Redux-Toolkit, Tailwind CSS, Typescript, Material-UI, Shadcn-UI, Node.js, Express, Prisma, PostgreSQL, and MongoDB.
You can check my personal detail and my personal projects on my website.

Personal Projects

Sarr Mal (POS)

- It's aimed for restaurant where customer don't need to wait for order because all tables are provided by Qr-code.
- Frontend has used React, Nextjs, Material-UI , Typescript, NextAuth for authentication and stage management for Redux-Toolkit.
- Backend - Prisma and PostgreSQL
- It has two app, one for restaurant and rest for customer.

Breadit

- Worked like Reddit, create community and create post.
- Frontend has used React, Nextjs, TailwindCss, Shadcn-UI, Typescript and NextAuth for authentication.
- Backend and Database for Prisma and MySql.
